Response to Arguments

1. The amendment filed March 31, 2008 will not be entered because the amendment introduces new matter which would require further search and/or consideration. For instance, independent claims 2, 12 and 16 now require that the cutout is a cutout in the lens, that the air hole allows air to escape from the substantially closed space, and that the ventilation channel extends at least from the top of the lens to a bottom of the lens. These claims are more specific than those previously presented and would thus require further search and/or consideration.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to ALBERT H. CUTLER whose telephone number is (571)270-1460. The examiner can normally be reached on Mon-Thu (9:00-5:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tuan V Ho can be reached on (571)-272-7365. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
